BRANCH MANAGER

REGINA, SASK., CANADA

August 3, 1928.

TO ALL DEALERS:

Pick-up and Swather Attachments, Independent Pick-up.

We are now advised that shipment of swather attachments and pick-up attachments will start from the factory right after August 5th which should bring them in here about August 15th.

The swather attachment is an attachment to convert the regular header into a swather and the list price is \$364.00 on time basis.

The pick-up attachment is an attachment that attaches to the regular header and the list price is \$230.00 f.o.b. Regina on time basis.

We will also have independent pick-ups, shipment of which will start from the factory about August 10th bringing them in here about August 21st. The price of the independent pick-up, that is the pick-up with the short table, is \$556.00 f.o.b. Regina on time basis.

It has been reported to us that the crop is not maturing quite as fast as was expected a short time ago and therefore we believe we will be able to take care of all orders if the customers will just have patience and wait for their machines.

With our best wishes, we are,

Very truly yours,

Nichols & Shepard Company,

By

L. W. Strauss,
Branch Manager.
